Felipe Aviani

Frontend & Mobile Developer | React | React Native | Next.js | TypeScript

Córdoba, Argentina | Phone: 2664553869 | Email: felipeaviani@gmail.com | LinkedIn | Portfolio

Professional Summary

Frontend & Mobile Developer with 2+ years of experience building web and mobile applications, specialized in React, Next.js, React Native, and TypeScript. Experienced in developing platforms focused on process optimization, improving performance, scalability, and user experience. Strong background working in agile environments (Scrum) and collaborating within cross-functional teams.

Technical Skills

- **Languages & Frameworks:** JavaScript (ES6+), TypeScript, React, Next.js, React Native, Redux, Redux Toolkit.
- **Frontend & UI:**HTML5, CSS3, Bootstrap, Tailwind CSS, Material UI, Ant Design
- **Backend & Databases:** Node.js, Express, PostgreSQL, Sequelize.
- **Tools & Others:** Axios, AsyncStorage, Chart.js, React-PDF, Socket.io, Scrum, Jira, Trello.

Professional Experience

PayFun – Front End Developer (Aug 2024 – Present)

Contribute to the development of internal admin panels and client-facing platforms, focusing on performance, scalability, and user experience improvements. The platform handles financial operations such as automatic debits, payment orders, and bank transfers, requiring high accuracy and reliability.

Improved system performance by 30% through optimized rendering, efficient global state management, and enhanced data loading strategies.

Increased operational efficiency by 40% by automating key processes, including report generation, role-based access control, and advanced search functionalities.

Developed a transactional analytics module with interactive charts, enabling data-driven decision-making.

Technologies: React, Next.js, TypeScript, Redux Toolkit, Material UI, Tailwind CSS, Bootstrap, Chart.js, React-PDF.

React Native Developer – Protección Laboral (Mobile App) (Jan 2026 – Present)

Developing a mobile application for field data collection and document management, improving operational efficiency and accessibility. Implemented authentication with persistent sessions, operational dashboards, and advanced forms including image capture and digital signature.

Built a document management module with search, filters, pagination, download, and deletion features, optimizing data accessibility in mobile environments.

The application is currently in the final stage of development and testing, designed for field use with a focus on usability, performance, and offline access.

Technologies: React Native, Expo, TypeScript, Redux Toolkit, AsyncStorage, React Navigation, Axios.

Project available on GitHub: github.com/Felipao22/app-native-proteccion

Full Stack Developer – Protección Laboral (Jan 2023 – Dec 2023)

Led the development of a custom document management platform, improving user creation performance by 50% and increasing file upload/download efficiency by 60%. These improvements supported process digitalization and contributed to acquiring new clients.

Participated in the design and implementation of key features focused on document management, ensuring a scalable and user-friendly experience.

Technologies: React, Redux, CSS, Ant Design, Node.js, Express, Sequelize, PostgreSQL.

Education

- **Full Stack Web Developer** – Henry (Intensive Bootcamp).
- **University Technical Degree in Programming – UTN FRSR** (in progress).

Languages

- **Spanish:** Native.
- **English:** B1 (Speaking) | C1 (Written).
